## Humbert & Poyet Rita Lamp

A table lamp that doubles as a sculpture is the perfect holiday gift. The Rita Lamp from Humbert & Poyet is a table lamp in lacquered walnut with travertine and brass. Handmade in Italy, the lamp features several bulbs that give light through the perforated, curved brass shade. The beautiful shape in a green hue recalls a bygone era, while the travertine adds an additional visual element. Design duo Emil Humbert and Christophe Poyet founded their studio in 2008 and are inspired by the French tradition of Decorative Arts and contemporary art. Their style can be categorized as bold and grandiose, as evidenced by this fantastic table lamp, and they've worked on several high-profile commercial projects, including fashion boutiques and restaurants. The lamp is available at The Invisible Collection, the first online platform that sells curated products from interior designers and craftsmen worldwide.
