"This year we are skipping the winter settings characteristic of January-March and fast forwarding straight to spring time with a welcome dose of optimism... We are excited to breathe fresh air, refresh the house, de-clutter the cupboards, change the scenery - replace Christmas decorations with fresh cut flowers and home-made arrangements, swap out the current candles for new smells we have never used before, and curate the table for lighter meals with clean, crisp white linens and delicately hued objets."

"Having spent much of 2020 refining our homes and interiors, we now resolve to add a few special, art style pieces ~ the ceramics by Guido De Zan 'Architettura', stools by Pinto, bronze chandelier by Hubert Le Gall and many other treasures in bright green or red by Jean Roger. In short ~ we just want to have our fireworks back again!"
